

CONFINED SPACE RESCUE

CANADIAN COUNTY, OKLAHOMA

MARCH 2022

Rose Rock provided confined space standby rescue services at a natural gas processing facility in central Oklahoma. Our trained crew remained on site during the entirety of a tank cleanout and were outfitted with in-place rescue tools. Should first aid had been required, our personnel were properly trained to administer assistance. Rose Rock crew members receive annual recertification in confined space entry and rescue services and observe all applicable OSHA requirements.

Consulting • **Field Services** • Products

Spill Response • Waste Management • **Facility Decontamination** • Site Investigations • Transportation Services
